The Spot Series

Portfolio

Artist Statement

EILEEN LUNECKE

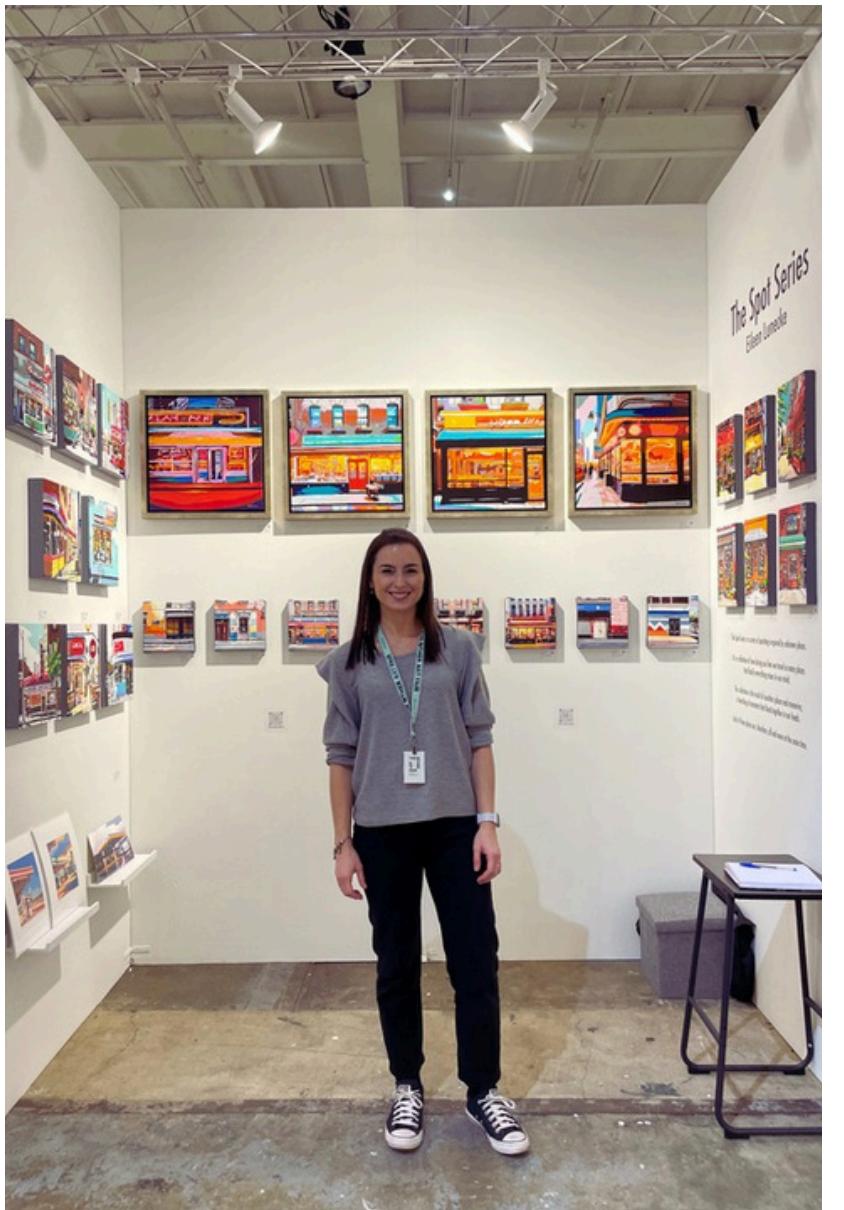

My work explores the relationship between the places we inhabit and the memories that settle within them. Through urban scenes that feel familiar yet remain deliberately unidentifiable, I construct spaces that exist between reality and recollection.

The Spot Series emerges from observing everyday corners: facades, buildings, and fragments of the city, that act as silent narrators of accumulated experiences. I am interested in how these spaces retain emotional traces and generate a sense of recognition without belonging to a specific location.

Through a vibrant color palette and deliberately precise compositions, I aim to transform the ordinary into images charged with atmosphere, inviting viewers to project their own memories onto these suspended, timeless settings.

The Spot Series

EILEEN LUNECKE

The Spot Series is a collection of paintings inspired by places that are both real and anonymous.

Each work functions as a point of intersection between memory, experience and space, where the recognizable blends with the undefined.

The series reflects on how places become holders of memory and emotion, transcending their geographical identity.
